John Sauder and Chris Venarchick were sworn in for testimony on zoom computer conference.

Mr. Venarchick described the property and the location to the Board stating that there are 2 properties of 8.5 acres each with 16 acres in all.

Mr. Venarchick explained the requested variance regarding not placing trees in the proposed parking lot islands and constructing a parking lot within the riparian buffer and floodplain.

Mr. Venarchick explained that the Mennonite Home will demolish a portion of the existing building and parking lot and replace them with a new parking lot. The existing building and parking lot are within the floodplain and riparian buffer. The existing parking lot has 65 parking spaces and the new parking lot will provide 140 parking spaces which is needed for employees to allow them to park on this property.

The Board asked if the existing parking lot was ever flooded. Mr. Sauder stated yes, the water was high enough that the cars needed to be moved.

Mr. Beyer moved to approve the request for a variance of Section 2512.3.C.3. to waive the required interior parking lot island tree plantings due to flooding concern/ complications within the floodplain; a variance of Section 2403.4.B.3.a. to permit disturbance within the riparian buffer. Mr. Strausser seconded the motion. The motion was denied because of a tie 2-2 vote with Mr. Stephens and Ms. Macedonia dissenting.
